Supervisor Sadler stated that we have had previous accidents on Rodgers Lane and during this last incident, we had our road department cut out a 4 x 4 section to see what was causing the problem, we could not find anything. We called our engineer Carl DeiCas he said that the stone they put on the road did not accept the tar and it ran off. The road is 22 feet wide and putting down 2 ½" ID 3 wearing course. If there's a rain it becomes extremely slick and therefore is dangerous and even somebody doing the regular speed limit, it's dangerous.

#### **Amendment to Resolution #415**

Supervisor Sadler moved to adopt Resolution #416 amending Resolution #415 adding that we adopt the Sewage Facilities Plan Module for Quality Co-Pac, making this a revision to our official sewage facilities plan seconded by Supervisor Ekves.
